

Yoga Pro 7a (15", 11)

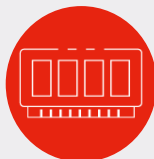

Your Biggest Ideas, Always Within Reach

At the core of the Yoga Pro 7a is an advanced memory design that unifies processing and graphics into a single high-performance system, enabling seamless handling of complex creative workloads while delivering smoother, more consistent performance in graphics-intensive games. Designed to sustain demanding workflows end-to-end, it maintains fluid responsiveness across creation, playback, and AI-driven tasks. Paired with the Force Pad and Yoga Pen Gen 2, and brought to life on a 165Hz PureSight Pro OLED display, every interaction feels precise, immersive, and effortlessly responsive.

A new breed of processor built to ignite new possibilities

AMD Ryzen™ AI Max Series processors keep your workflow smooth and fast whether you're editing high-res videos or rendering 3D models. Enjoy stunning visuals with Radeon 8000S series offering integrated graphics that rivals discrete graphics, ensuring quick render times and real-time previews. Plus, with up to 96GB of variable graphics memory for pixel-perfect AAA gameplay at high settings, you can create and game anywhere without compromise.

Breakthrough the limits

The Yoga Pro 7a supports up to 128GB of true unified memory, removing fixed VRAM limits. A shared high-bandwidth memory pool between the CPU and integrated GPU keeps performance smooth as demand increases, automatically reallocating memory for more stable rendering, smoother gameplay, and consistent performance.

Heat Off Flow On

Lenovo X Power is built to handle demanding creative workloads with dual fans, 90W TDP, and an upgraded thermal system featuring a 4-heat-pipe setup, mesh plate, larger vents, and a thermal bump for steady cooling. All that performance running cool and whisper-quiet, with noise levels as low as 22 dB.

Every Pixel Counts

The PureSight Pro OLED display delivers HDR 1100 nits peak brightness, Dolby Vision®, and DisplayHDR True Black 1000 certification for lifelike contrast. With wide color at 100% sRGB, P3 and Adobe RGB plus Delta E<1, every frame stays true. A 165Hz VRR ensures smooth motion, while TÜV Low Blue Light and Eyesafe certifications reduce eye strain.

NOTEABLE MENTIONS

- EPEAT® Gold-registered
- ENERGY STAR® Rated
- Carbon Neutral Certified
- Plastic-free Packaging
- 50% Recycled Aluminum in the Bottom Cover
- MIL-STD 810H Passed

All battery life claims are approximate and based on two methods of testing: continuous Local Video Playback and Web Browsing @ 150 nits brightness on the latest update of Windows 11. Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use. 2 Height is calculated using T2 measurements and should be considered 'as thin as'. 3 The actual transfer speed of the USB 3.2 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environments, may be slower than a speed of 20 Gbit/s. 4 EPEAT®-registered where applicable - see www.epeat.net for registration status by country.

LENOVO SERVICES

Lenovo Premium Care Plus
Lenovo Premium Care Plus is the ultimate PC support experience with you as our priority 24/7. Enjoy personalized hardware and software support from a global network of elite technicians, along with accidental damage protection, fast repairs with onsite support, extended battery warranty, data migration assistance, and smart performance solutions that optimize PC performance and security.

Lenovo Smart Performance
Smart Performance Services within Lenovo Vantage will keep your system running at optimum performance and proactively fix issues that affect PC performance, internet performance, remove malware, and improve device security.

Lenovo Accidental Damage Protection
Avoid the hassles of unexpected damage & repair costs. With coverage for drops, spills, electric surges, and broken LCD screens, accidental damage protection makes it easy to repair to your PCs and ensures your device is up and running fast.

Lenovo CO₂ Offset Services
Offset the carbon emissions of your PC with Lenovo CO₂ Offset Services - an easy and transparent solution to offset emissions across the average lifecycle of your device. These offsets are invested in UN-approved initiatives like renewable energy or ecological projects, thus contributing towards a more sustainable future.

Lenovo Sealed Battery Warranty
Long-lasting battery life is not just a feature but a necessity to help you stay productive and connected all day long. Protect your PC's sealed battery from degradation, enjoy hassle-free battery replacement service, and safeguard your PC from future battery failure with our Sealed Battery Warranty Service.

Lenovo Warranty Extensions (Up to 3 Years Duration)
Gain complete peace of mind by extending your base warranty to up to 3 years and minimize unexpected repair costs.
